Fixes

We are adding additional tracking to improve our ability to analyze the impact of a variety of stability measures we've implemented in ConstructConnect Takeoff. TD-21171, TD-20907, TD-21141, TD-21172 are all part of that effort.

Known Issues

- If a Sheet no longer belongs to the Current Set in a bid because the Revision Page was deleted and the Original Page was deactivated, the takeoff and annotations done on the Revision Page do not get removed from the bid as expected and the totals on the Worksheet and Summary Tabs are incorrect.
 - **Workaround:** Activate/deactivate the Original Set
 - *** UPDATE:** Corrected for pages with takeoff. Work continues on pages with annotations as well.
- Bids originating from the ConstructConnect Platform cannot be imported into Quick Bid when the Bid Date, Bid Time, Start Date, and End Date are missing from the Bid Cover Sheet.
 - **Workaround:** Enter Bid Date/Time, Start/End Date on the Bid Cover Sheet in ConstructConnect Takeoff. Remember to press Tab or Enter after adding dates/times to activate Save button for Bid Cover Sheet.

The screenshot shows the 'Bid Cover Sheet' form with two main sections: 'Project Information' and 'Bid Settings and Information'. The 'Bid Settings and Information' section contains several fields, some of which are highlighted with red boxes. A text box in the 'Notes' section provides instructions on how to populate these fields for export to Quick Bid.

Project Information		Bid Settings and Information	
Project Name		Bid Name	Base Bid
Project Code	Project Type Default	Lead Estimator	Bid Status Bidding
Organization	Current Bid	Bid Code	Contract/Job No.
Project Owner(s)		Accounting ID	Total SQ Size
Notes	Bid Date/Time and Start/End Date must be populated to export Bid to Quick Bid	Bid Date and Time Jan 19, 2021 @ 2:00 PM CST	Local Bid Date and Time Jan, 19 2021 @ 02:00 PM
		Start Date Feb 14, 2021	End Date Feb 22, 2021
